Answer Options	Response Percent	Response Count
Yes	57.9%	92
No	42.1%	67
<i>answered question</i>		159
<i>skipped question</i>		308

Sec. 1902. [42 U.S.C. 1396a] (a) A State plan for medical assistance must—

(30)(A) provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area;
